

# Thompson Park

346 N. Lincoln Avenue

## DESIGN GOALS

### Response to growth

- Upgrades that accommodate over 420 new residential units in the downtown core
- Upgrades that serve the expanding downtown business core
- Design aesthetic that respects the past while melding with recent Fourth Street improvements

### Activation of public space

- Creation of a bright, open, inviting downtown space
- Options for hosting of events and gatherings
- Potential for connection to future redeveloped commercial and restaurant spaces

### Flexible, multi-function design

- Open layout of space allows for multiple configurations
- Electric connections to be provided for event space, food trucks, exhibits, holiday lighting and live music options
- Multiple seating options and configurations

### Visitor comfort and security

- Open design that maximizes visibility into and out of the park
- Nighttime lighting
- Opportunities for seating in shade and sun
- Potential for security service monitoring

### Maintenance friendly design

- Minimal cost and time needed to maintain the space
- Low maintenance and low water use plantings
- Materials designed for durability and longevity
